

# PROCTOR & GAMBLE RESEARCH FACILITY

Pavilion Mfg. Inc.

When Proctor & Gamble wanted to build a large research facility for their yard in Pennsylvania, they turned to Pavilion for their building requirements. At Pavilion we can manufacture tensioned fabric covered buildings for all kinds of applications. Our high quality materials and construction along with site specific engineering means our customers will be safe and comfortable in their building without having to worry about stormy weather bringing large wind and snow loads with it. At any given time you will find up to 200 employees working inside this big beautiful building with the research they do being top secret. The use of Pavilion's Walton design with almost as much building height as width allowed Proctor & Gamble to have the ideal building for their needs. What started off as merely an idea in the minds of P & G executive now stands as a reliable and constantly used research building. Continue reading to find out all the other great reasons P & G found were a good fit for their building needs.

# PROCTOR & GAMBLE RESEARCH FACILITY

## Pavilion Mfg. Inc.

Pavilion brings over 35 years of experience in the construction industry to every Pavilion structure. With Pavilion Structures you obtain the highest warranty rating in the industry based on its superior engineered design and qualified manufacturing. We believe that pre-fabricated covered temporary and permanent structures are the best economical alternative to typical steel buildings. Pavilion has been engineering and manufacturing Pavilion structures for over 10 years.

Pavilion is dedicated to providing cutting edge design and technology to our customers requiring fabric covered buildings. All divisions of our company and employees are dedicated to building a solid, trusting partnership with all of our customers.

Our team is dedicated to help provide you with the highest level of customer satisfaction during and after the completion of the project.

Our customers can choose from one of our pre-engineered pavilions or we will create a building specific to your needs.

Taking only half the time to install versus conventional buildings, Pavilion offers an economical solution. We understand that "TIME IS MONEY" and we want to ensure you, our customer, a return on your investment.

Our fabric cover is a high performance material offering natural light allowing you to save \$\$ and provides superior air quality. The super strong spider weave cover and versatile design make our building very easy to install, relocate or extend at any time.

Site specific engineering for wind and snow loads, pre-engineered or in-house engineering team custom designs, quick installation, 18 year warranty, super tough fabric cover and a strong support network. You dream it we build it.
